### About This Game

The Moment of Silence is a classic point-and-click 3rd person adventure game set in New York City in 2044. Players step into the role of Peter Wright, an advertising executive currently heading up the Government's 'Freedom of Speech' campaign. When a heavily armed SWAT team storms his neighbor's apartment, Peter must uncover the truth behind his mysterious disappearance as he becomes drawn into the deceptive worlds of corruption and power. Fascinating, well researched visions of the near future 75 locations, designed by award-winning CG artists and more than 500 interactive screens 30 minutes of full screen video Lip synchronization using phonetic voice analysis Motion captured animation.

The Moment of Silence marries fully-rendered, animated backdrops with a traditional and intuitive adventure interface. The game mixes real-world locations with fictitious environments to create immersive and incredibly varied worlds.

The Moment of Silence offers more than eight hours of professional voice talent for heart-pounding drama that sounds as good as it looks. Traditional adventure puzzles are fused with dialogue choices and moments of high drama, putting the game on par with some of cinema's greatest thrillers, where action sequences are integrated to create a constantly challenging adventure.

### Key Features

- Absolutely unique, highly immersive espionage thriller story

- 
- Pre-rendered backgrounds with spectacular scenes and actions
  - Reminiscent of The Longest Journey
  - Multiple choice dialogues
  - 35+ true-to-life 3D characters with strong biographical background to interact with
  - Fascinating, well-researched visions of the near future
  - 75 locations, designed by award-winning CG artists and more than 500 interactive screens
  - 30 minutes of full screen video
  - Lip synchronization using phonetic voice analysis
  - Motion-captured animation with real-time facial expressions

I loved this game when I was a kid in the late 90s and purchased this the moment I was told it existed!

Nostalgia has never sounded and looked so good!

Ideal brick-breaker style game and pricing perfect!

Soundtrack is awesome and keeps that good-ol 90s feel

Thank the devs for bringing this classic back to life because this is a must have for anyone and everyone!. Well. 13 minutes in is as far as I got! This game got creepy AF after only 1 minute :O and I had goosebumps from all the whispers. I'll be back with a complete review when I get the guts to start it again, but I felt like I have to say something about it :P

I'll recommend it, but it might change after some real playtime - or not. So ur better off reading reviews from others with much more playtime! :). Very fun mission. It is extremely frustrating and very challenging and after about four attempts, I still couldn't complete it. I somewhat like the twist in starting in Modern Times and having to optimistically rapidly expand your economy while being careful. The tasks you have to complete are doable, but anything can screw you up as the mission task is very fragile. I recommend it for the challenge.

I like the building in this DLC, a nice small addition.

I haven't touched any other parts of the DLC.

For the first four DLC of Tropico 5, this has probably the best challenge. I purchased this DLC for \$2.40 on sale and I recommend it at that price, but at \$3.99, I wouldn't purchase it. 7/10

When i first saw this DLC i was really excited, because i really loved the visual novel, but wasnt really happy with Asumi's look. At first you might think of this DLC that you can play the Story again with your own Character, like i did, but thats NOT the fact. The Character you make in this DLC cant be used anywhere, so in my opinion its nearly useless. Would have been a very good DLC if you were able to replace Asumi with the Character you made here, but as it is now, its a waste of Money.. Ok for the price, story line took me a while to finish. I purchased the monthly subscription yet they don't let me render my videos without the watermark. I am genuinely shocked. I payed money to use a demo.. Boss Fights are unique, and figuring out what you have to do is always difficult and challenge which is rewarding!

However, dying after a boss sends you back into a somewhat distant spawn point (depending on the area). In return making your trip back to the boss room tedious. It can be frustrating because everything in the game kills you in 1 shot (which you means you die often).

Gameplay mechanics are very simple and optimal. There is no items or loot of any kind, and no progression whatsoever.. This game is great so far - a mix of dry, British humor and lots of old school LucasArts mixed in. This is the kind of indie game that should be getting attention for it's writing and throwback style.
